

# GPU Day 2024

## Thursday, 30 May 2024

### Session II (11:00 - 12:40)

time	[id] title	presenter
11:00	[120] Simulation of photonic quantum computing with automatic differentiation in Piquasso	KOLAROVSKI, Zoltán
11:25	[131] Problem-informed graphical quantum generative learning	BAKÓ, Bence
11:50	[122] Hybrid Quantum-Classical Reinforcement Learning in Latent Observation Spaces	NAGY, Daniel
12:15	[115] Towards exascale computation of quantum systems - Industrial perspectives	LEGEZA, Örs
