

Generatív MI használata a programozásban

Monday, 21 October 2024 - Monday, 21 October 2024

Scientific Programme

Programme

- About the theory of large language models (ChatGPT, Copilot, SZTAKI-hosted Llama)
- registration process of Github Copilot for Wigner RCP users
- advantages of ChatGPT plus (demo: upload data and write code with canvas function)
- hands-on coding with the free version of ChatGPT (writing and refining a bash code, asking questions about a C API)
- hands-on coding with Copilot (single-line, multi-line code prediction, refactoring, documentation in Python)
- discussion (please bring your problems, requests, and ideas for HUN-REN with you)

Information

- Default language is Hungarian, for any request we switch to English.
- Event at our home page ai.wigner.hu
