

Entanglement day

4-5 September 2014, Budapest, Hungary

School and workshop on quantum entanglement

Organisers

J. Asbóth
G. Tóth
Sz. Szalay
I. Kovács

Sponsors

Topics

Quantum and classical correlations
Theory of quantum entanglement
Detection of entanglement
Bell inequalities
Decoherence
Quantum metrology
Area law and universal corrections
Tensor networks and entanglement
Entanglement in topological phases
Entanglement dynamics
